

Tossup 1: Literature — Literature

<p>The novel begins with a ball and a proposal of marriage which is rejected. Charlotte Lucas ends up marrying then man who was rejected, Mr. Collins. Later it is noted that, as a result of chasing after Georgiana, Wickham finds himself disinherited, a truth which is revealed in a poignant letter to the main character. Originally titled "First Impressions," and featuring Elizabeth Bennet's relationship with Fitzwilliam Darcy, identify this work, written by Jane Austen.</p>	<p><u>Pride and Prejudice</u></p>
---	--

Bonus 1: Miscellaneous — Interdisciplinary

<p>Answer these questions about famous duels.</p>		
A	<p>This Russian author wrote about a duel between Eugene Onegin and Lensky and was also killed in a duel in 1837.</p>	<p>Alexander <u>Pushkin</u></p>
B	<p>This mathematician famous for an theory about the solving of polynomials by radicals wrote down some important work the night before he was fatally wounded in a duel.</p>	<p>Evariste <u>Galois</u></p>
C	<p>This man was the sitting Vice-President when he killed the guy now the 10 dollar bill.</p>	<p>Aaron <u>Burr</u></p>
D	<p>This artist of Luncheon on the Grass fought a duel with an art critic in which both survived.</p>	<p>Edouard <u>Manet</u></p>

Tossup 2: Science — Earth Science

<p>It was surrounded by the Panthalassic Ocean, and ceased to exist around the Mesozoic era, particularly during the Jurassic. Named by Alfred Wegener, it enclosed the Tethys Ocean and was succeeded by Gondwana and Laurasia. Name this supercontinent which formed during the Paleozoic Era.</p>	<p><u>Pangaea</u></p>
--	-----------------------

Bonus 2: Literature — Mythology

<p>Identify the following about mythical bodies of water.</p>		
<p>A</p>	<p>The Olympian gods swore oaths by this "river of hate," and it winds around the underworld nine times.</p>	<p><u>Styx</u></p>
<p>B</p>	<p>Heracles diverted the Alpheus and Peneus rivers to accomplish this labor, which also featured a side bet of one-tenth of one party's cattle.</p>	<p><u>cleaning the stables of King Augeus</u> (accept clear knowledge equivalents)</p>
<p>C</p>	<p>The Hellespont got its name from the sister of Phrixus, who fell off the animal that would end up being the source of this item hung from an oak tree by Aeetes.</p>	<p><u>golden fleece</u></p>
<p>D</p>	<p>Odin sacrificed an eye to drink from this well, found in Jotunheim, which in some sources is guarded merely by a head.</p>	<p><u>Well of Mimir</u> (accept Well of Highest Wisdom)</p>

Tossup 3: Miscellaneous — Entertainment

<p>It sees you collecting red and blue pages in order to rescue the brothers SIRRUS and ACHENAR from their prisons inside of magic books. Those magic books, along with several others, were created using "The Art" by their father ATRUS. Most books are used to travel to different "Ages" using specially crafted books. Published by BRØDERBUND and spawning sequels including Revelation, Exile, and Riven, identify this computer game which was the best-selling PC game of all time until The Sims came along.</p>	<p><u>Myst</u></p>
---	---------------------------

Bonus 3: Fine Arts — Music

<p>Identify the following things about the life and works of Richard Wagner (<i>REE-kard VAHG-ner</i>).</p>		
<p>A</p>	<p>This cycle of four operas including Siegfried and Das Rheingold is probably what Wagner is most famous for.</p>	<p>Der <u>Ring des Nibelungen</u> or The <u>Ring of the Nibelungen</u> <i>(accept The <u>Ring Cycle</u>)</i></p>
<p>B</p>	<p>This other opera of Wagner's concerns a Minnesinger who is forgiven of his sins in Venusburg by the pope.</p>	<p><u>Tannhäuser</u> (<i>TAHN-hoyser</i>) und der Sängerkrieg auf Wartburg</p>
<p>C</p>	<p>Wagner's body of work makes notable use of these repeated themes used to represent various characters, locales and ideas.</p>	<p><u>leitmotif</u></p>
<p>D</p>	<p>Wagner could not find a suitable place to put on his famous opera cycle, so he built a custom opera house in this German city, which still shows the complete cycle yearly.</p>	<p><u>Bayreuth, Bavaria</u></p>

Tossup 4: Science — Biology

This phenomenon notably occurs with the coral snakes, milk snakes, and false coral snakes. The Batesian variety involves a harmless species evolving to appear like a harmful species, while the Mullerian variety involves two harmful species evolving to appear similar. Name this biological mechanism in which one species takes on the appearance of another.

Mimicry

Bonus 4: Literature — Literature

Answer these questions about works whose titles come from other works.

A	The title of this novel by Thomas Hardy about Bathsheba Everdene and her three suitors comes from Gray's "Elegy Written in a Country Churchyard."	<u>Far From the Madding Crowd</u>
B	Faulkner took this title from Macbeth to describe the tumult of Jason, Quentin, Caddie, and Benjy—all members of the Compson family.	<u>The Sound and the Fury</u>
C	Walter Lee and Lena Younger appear in this Lorraine Hansberry play whose title appears in a Langston Hughes poem about deferred dreams.	<u>A Raisin In the Sun</u>
D	Hemingway took this title from John Donne's Meditation 17 on the Latin phrase "Nunc Lento Sonitu Dicunt, Morieris."	<u>For Whom the Bell Tolls</u>

Tossup 5: Miscellaneous — Sports

Created in 1893, it is nearly three feet tall and weighs over 30 pounds, and though used by many associations, it wasn't with its current league until 1947. Named after a Governor General, winners of it are allowed to keep it for a day. It has been won by Montreal 23 times, 10 more times than fellow Canadian team Toronto Maple Leafs. Name this trophy awarded to the champion of the NHL playoffs.	Lord <u>Stanley's Cup</u>
---	----------------------------------

Bonus 5: Science — Biology

Identify these terms related to genetics.		
A	Dominant and recessive are categories of these, which are variations of a gene.	<u>Allele</u>
B	A genotype is the genetic makeup of an individual, as contrasted with this, the physical appearance.	<u>Phenotype</u>
C	This namesake box is a convenient way of organizing test crosses to determine the probability of certain genotypes.	<u>Punnett square</u>
D	As contrasted with sex chromosomes, these chromosomes are possessed in equal number by both genders.	<u>Autosomes</u> (<i>accept <u>autosomal chromosomes</u></i>)

Tossup 6: Math — Geometry (Computational: 30 Seconds)

Give the surface area of a right cylinder with radius of 10 and height of 17.	<u>540 pi</u>
---	----------------------

Bonus 6: Literature — Literature

Answer these questions about the Horatian phrase “carpe diem”.		
A	This American author of After Apple-Picking and The Death of the Hired Man also wrote a poem with that title.	Robert <u>Frost</u>
B	This author of Humbolt’s Gift wrote a novel whose title is the usual English translation of the phrase.	Saul <u>Bellow</u>
C	Give that title, the common English translation of “carpe diem”.	<u>Seize the Day</u>
D	This carpe diem themed poem by Robert Herrick entreats the title people to “Gather ye rosebuds while ye may.”	<u>“To the Virgins, to Make Much of Time”</u>

Tossup 7: Social Studies — Geography

Donkeys and camels are found within its borders, as is Katherine Gorge and Mount Augustus National Park. Containing most of the fossils on the continent, cities in it include Tennant Creek and Broken Hill, the latter of which is New South Wales. Recently, the government has attempted to restrict the dingo population. Name this arid territory that covers much of Australia.	<u>Outback</u>
--	----------------

Bonus 7: Science — Physics

Give the following terms used in basic mechanics:		
A	This term refers to the magnitude of the velocity vector.	<u>speed</u>
B	Unlike vectors, quantities of this type do not have an associated direction. Examples include mass, temperature, and energy.	<u>scalar quantity/ies or scalars</u>
C	This conserved quantity is often symbolized p and is given by the product of mass and velocity.	<u>linear momentum</u> (<i>do not accept angular momentum</i>)
D	This quantity is the change in the answer to part three, and can be given by the integral of force with respect to time.	<u>impulse</u>

Tossup 8: Literature — Mythology

<p>In The Odyssey, in order to ensure that Odysseus is rescued, she appears in Nausicaa's dreams. Tiresias once stumbled upon her bathing, which struck him blind. She later made up for his loss by giving him the gift of prophecy. Though her mother Metis was swallowed by Zeus while she was still pregnant, this goddess managed to eventually burst through Zeus' forehead, fully armed with weapons and all. Known by the epithet "Pallas" and famous for a weaving contest with Arachne, identify this Greek goddess of heroic endeavor as well as wisdom.</p>	<p>Pallas Athena (<i>do not accept Minerva</i>)</p>
---	--

Bonus 8: Social Studies — Other

<p>Identify the following about economic goods.</p>		
A	<p>This term describes two goods for which a price increase in one leads to a decrease in demand for the other.</p>	<p>complements (<i>accept equivalents</i>)</p>
B	<p>This term describes two goods for which a price increase in one leads to an increase in demand for the other.</p>	<p>substitutes (<i>accept equivalents</i>)</p>
C	<p>The demand curve for this specific kind of good slopes upward due to the dominance of the income effect.</p>	<p>Giffen good</p>
D	<p>As an individual's income increases, if the quantity demanded for a good falls, then it is considered to be this type of good.</p>	<p>inferior good</p>

Tossup 9: Science — Astronomy

<p>It went into service seven years after it was supposed to, and in less than a decade the James Webb will take over its duties. Its main feature is of the Ritchey-Chretien design, and it has been repaired four times, though it is due to be repaired for a fifth within the next few months. Named after a man famous for his studies of galaxies, name this satellite observatory orbiting the Earth.</p>	<p><u>Hubble</u> Space Telescope</p>
--	---

Bonus 9: Literature — Mythology

<p>Identify the following about mythical musicians who aren't Muses.</p>		
<p>A</p>	<p>This son of Calliope saved the Argonauts from the song of the Sirens, and even after Maenads ripped him apart, his head still sang as it floated to Lesbos.</p>	<p><u>Orpheus</u></p>
<p>B</p>	<p>Apollo gave Midas donkey ears after he judged that the music of this satyr god was better than that of Apollo.</p>	<p><u>Pan</u></p>
<p>C</p>	<p>After finding a double flute left behind by this goddess of wisdom, Marsyas challenged Apollo to a contest.</p>	<p><u>Athena</u> (accept <u>Minerva</u>)</p>
<p>D</p>	<p>After Apollo demanded that he be punished for stealing cattle, he gave Apollo the lyre he invented.</p>	<p><u>Hermes</u></p>

Tossup 10: Social Studies — U.S. History

<p>This case began when the defendant refused to deliver the "midnight appointment" of the plaintiff. The defendant in fact succeeded in the cabinet the man who would write the decision for this case, John Marshall. The ruling held that a previous act enlarging the Supreme Court was unconstitutional, and that the Court had a duty to ensure that Congress did not pass laws that contradicted the Constitution. Name this 1803 case which affirmed the practice of judicial review.</p>	<p><u>Marbury v. Madison</u></p>
---	---

Bonus 10: Math — General

<p>Identify these things about the Fibonacci numbers, a sequence which starts 1, 1, 2, 3...</p>		
A	This is the seventh Fibonacci number.	<u>13</u>
B	This is the first composite Fibonacci number.	<u>8</u>
C	This is the first Fibonacci number which is a perfect square.	<u>144</u>
D	This is the first Fibonacci number greater than or equal to 200.	<u>233</u>

Tossup 11: Literature — Literature

<p>His first work was a collection of ten pieces, each of which includes imagined conversation between groups of herdsmen, the Eclogues. Also penning the Georgics, his most famous work included a battle between the title character and a king from the neighboring Rutuli villiage, Turnus. That battle ended in the title character winning the hand of Lavinia, finally ending his long journey from Troy. Responsible for Rome's national epic, identify this ancient author of The Aeneid.</p>	<p>Publius <u>Vergilius</u> Maro</p>
--	---

Bonus 11: Miscellaneous — Entertainment

<p>Kanye's ability to rap may be questionable, but the man knows how to make hits. Answer the following about the career of Mr. West, on and off the mic.</p>		
<p>A</p>	<p>After getting into a car accident and having this jaw wired shut, Kanye recorded this song, his first major hit as an artist.</p>	<p><u>Through the Wire</u></p>
<p>B</p>	<p>At the 2008 Grammys, Kanye performed "Stronger", which marked the first TV appearance of this collaborator on the smash hit.</p>	<p><u>Daft Punk</u></p>
<p>C</p>	<p>This rapper threatened to quit releasing solo albums if Graduation outsold his album Curtis, but he later rescinded, and continues to create bad music.</p>	<p><u>50 Cent</u> (<i>accept Curtis <u>Jackson</u>, prompt on Mr. Cent</i>)</p>
<p>D</p>	<p>Kanye was presenting alongside this actor during an NBC concert for Hurricane Katrina relief when he uttered the line "George Bush doesn't care about black people."</p>	<p>Mike <u>Myers</u></p>

Tossup 12: Fine Arts — Visual Art

<p>Shortly after taking refuge in England during the Franco-Prussian War, he produced one of his more famous paintings which depicts a hazy Le Havre landscape including a shipyard. Ten years later, he moved to his most famous locale, which would serve as a basis for a number of his future works, Giverny. Painting the eponymous work for the Impressionism movement, Impression, Sunrise, identify this artist famed for his paintings of Rouen Cathedral, his groups of Haystacks, and his series of Water Lilies.</p>	<p>Claude Oscar <u>Monet</u></p>
--	---

Bonus 12: Science — Astronomy

<p>Answer the following about the Milky Way galaxy.</p>		
<p>A</p>	<p>Our galaxy has this many major spiral arms emanating from the center.</p>	<p><u>4</u></p>
<p>B</p>	<p>Our solar system is found in this smaller arm, named for a prominent constellation which includes the stars Rigel, Bellatrix, and Alnitak.</p>	<p><u>Orion arm</u></p>
<p>C</p>	<p>2005 finally saw the confirmation that the Milky Way is this type of galaxy, based on a whirlpool appearance with an elongated center.</p>	<p><u>Barred spiral</u> (<i>prompt on <u>spiral</u></i>)</p>
<p>D</p>	<p>If you wanted to look straight into the center of the Milky Way, you would be looking at this constellation; a part of the zodiac, it contains the asterism known as the teapot.</p>	<p><u>Sagittarius</u></p>

Tossup 13: Social Studies — World History

<p>This man was forced to watch the execution of his friend Hans von Katte as a teenager, after the two had attempted to run away. A correspondent of Voltaire, he tried to emancipate the serfs during his reign, but the nobles refused and serfs were only freed on royal lands. He fought in multiple wars, including more than once over the territory of Silesia. Name this member of the Hohenzollern family, a Prussian king known as the "Great."</p>	<p>Frederick II (accept <i>Frederick the Great</i> before mentioned; prompt on it afterwards)</p>
--	--

Bonus 13: Math — Algebra

Fully factor the following polynomials.		
A	x squared + 7 x + 10.	(accept each answer in any order) <u>(x + 2)(x + 5)</u>
B	2 x squared - 7 x + 6.	<u>(x - 2)(2x - 3)</u>
C	x cubed + x squared + 2 x + 2.	<u>(x + 1)(x squared + 2)</u>
D	x cubed - x.	<u>x (x - 1)(x + 1)</u>

Tossup 14: Literature — Literature

<p>In this work, Felix loves a foreign girl, Safie (<i>sah-fee-uh</i>), whom he teaches French, which directly leads to another character picking up the language. That character eventually goes on to murder the title character's best friend, Henry Clerval. Also detailing the death of William and the framing of Justine, this work is told in an epistolary frame narrative taking the form of Robert Walton's letters to his sister describing his Arctic journey. Subtitled "The Modern Prometheus," identify this Gothic novel about a monstrous creation written by Mary Shelley.</p>	<p><u>Frankenstein; or, The Modern Prometheus</u></p>
---	--

Bonus 14: Social Studies — U.S. History

<p>Identify these facts related to women's rights in America.</p>		
<p>A</p>	<p>Perhaps the most visible figure of the movement, this co-founder of the National Women's Suffrage Association appears on the dollar coin.</p>	<p>Susan Brownell <u>Anthony</u></p>
<p>B</p>	<p>This woman was the other co-founder of the National Women's Suffrage Association, and with Lucretia Mott she organized the event in Part C.</p>	<p>Elizabeth Cady <u>Stanton</u></p>
<p>C</p>	<p>This 1848 event in New York is considered the first Women's Rights Conference.</p>	<p><u>Seneca Falls</u> Convention</p>
<p>D</p>	<p>In 1872, this person became the first female to run for the U.S. presidency.</p>	<p>Victoria <u>Woodhull</u></p>

Tossup 15: Science — Chemistry

This force is used in self-healing rubber and is responsible for the high boiling points of ammonia and water. It is substantially stronger than the similar van der Waals or London forces. Name this type of intermolecular force which occurs when the namesake atom interacts with nitrogen, oxygen, or fluorine atoms.

Hydrogen bonding

Bonus 15: Literature — Literature

Identify the following about authors and characters who committed or may have suicide.

A This author of *Mrs. Dalloway* and *To the Lighthouse* committed suicide by sticking stones in her pocket and drowning herself.

Virginia Woolf

B The wife of Count Alexei Vronski, this Tolstoy title character threw herself under a train.

Anna Karenina

C After her father Polonius is killed by the man who loves her, she drowns in a river.

Ophelia

D This feminist author of *Ariel* and *The Bell Jar* took her own life via gas poisoning.

Sylvia Plath

Tossup 16: Math — Algebra (Computational: 30 Seconds)

Give the x and y solutions for the pair of equations $6x + 3y = -21$ and $x - 2y = -11$.

x = -5 and y = 3 (accept (-5, 3))

Bonus 16: Science — Earth Science

Identify the following about important principles in geology.

A	Unrelated to a similarly named principle used to find the amplitude of waves, this principle generally holds that younger sedimentary layers are found on top of older layers.	Principle of <u>Superposition</u> (also accept <u>Superposition Principle</u>)
B	Starting with the letter "U", this principle that permeates science is the belief that the natural processes at work in the past are the same processes at work today.	Principle of <u>Uniformitarianism</u> (also accept <u>Uniformity</u>)
C	The principle of cross-cutting relationships deals with the formation of these entities which can be characterized as "dip-slip" or "strike-slip".	<u>Faults</u>
D	The principle of faunal succession holds that the appearance of these entities in sedimentary rock can be used to date the strata.	<u>Fossils</u>

Tossup 17: Literature — Literature

<p>The main character returns home one night to find his wife Mildred asleep with an empty bottle of sleeping pills by her head. This leads the medical team he calls upon to use a machine to suck out all of Mildred's blood and replace it with new blood. Another episode sees a 'mechanical hound' employed by some men to hunt down small animals just to watch them die. Also following the curious Clarisse McClellan and the fireman Guy Montag, identify this work in which all books must be burned, written by Ray Bradbury.</p>	<p><u>Fahrenheit 451</u></p>
--	-------------------------------------

Bonus 17: Science — Astronomy

<p>Identify these things related to the Soviet space program.</p>		
A	<p>This is the Soviet term for astronauts.</p>	<p><u>Cosmonaut</u></p>
B	<p>The Soviets managed to put this dog into orbit, the first animal in space.</p>	<p><u>Laika</u></p>
C	<p>This Soviet was the first person to orbit the Earth.</p>	<p><u>Yuri Gagarin</u></p>
D	<p>Much later, in 1986, this Russian spacecraft became the first permanently manned space station.</p>	<p><u>Mir</u></p>

Tossup 18: Fine Arts — Music

<p>In his most famous opera, a political prisoner, Florestan, is rescued by a woman disguised as a prison guard, Leonore. One of his other works is commonly cited as the beginning of the Romantic era in music. That third symphony, originally dedicated to Napoleon, is titled Eroica. Identify this man who composed such works as his only opera, Fidelio, the Moonlight Sonata and his Ninth Symphony including the "Ode to Joy".</p>	<p>Ludwig van <u>Beethoven</u></p>
--	---

Bonus 18: Math — Other

<p>There are three men and three women in a meeting. How many different subcommittees are possible under each of the following conditions?</p>		
A	A two-person subcommittee.	<u>15</u>
B	A three-person subcommittee.	<u>20</u>
C	A two-person subcommittee with one man and one woman.	<u>9</u>
D	A three-person subcommittee with no more than one man.	<u>10</u>

Tossup 19: Science — Chemistry

A popular one is extracted from lichens and consists mostly of azolitmin. Electronic meter ones use an electrode to measure the voltage in a solution, since this is related to a certain ion's concentration. The universal variety is a combination of many other ones, and is red when hydrogen concentration is high, and blue when it is low. Name this type of chemical compound like phenolphthalein (*FEE-nol-THAY-leen*) and litmus paper, which determines the pH of a solution.

pH indicator

Bonus 19: Social Studies — World History

Identify these facts related to the Treaty of Versailles (*ver-SI*).

A	The "Big Three" were comprised of Woodrow Wilson, Georges Clemenceau, and this man, the British Prime Minister.	David Lloyd <u>George</u>
B	Woodrow's main aims, including the formation of a League of Nations, were deemed these.	<u>Fourteen Points</u>
C	Article 231, also known as this, essentially blamed Germany for the entire conflict.	War <u>Guilt Clause</u>
D	Although he left because of frustration, this Italian Prime Minister later returned to the conference.	Vittorio <u>Orlando</u>

Tossup 20: Math — General (Computational: 30 Seconds)

In ascending order, give the prime factorization of 440.	$2^3 * 5 * 11$ (or $2 * 2 * 2 * 5 * 11$)
--	---

Bonus 20: Fine Arts — Visual Art

Identify these female artists.	
A	This impressionist painter of the Child's Bath, though born in Pennsylvania, spent most of her life in France. Mary <u>Cassat</u>
B	Alfred Stieglitz was the husband of this painter of City Night. Georgia <u>O'Keeffe</u>
C	This centenarian painted the Old Checkered Inn in Summer. Grandma <u>Moses</u> (accept <i>Anna Mary Robertson <u>Moses</u></i>)
D	This 20th century photographer is well known for her Migrant Mother. Dorothea <u>Lange</u>

Tossup A: Math — Algebra (Computational: 30 Seconds)

Give the two roots of the equation $3x^2 + 7x - 10 = 0$.	1 and $-\frac{10}{3}$ (both answers required)
---	---

Bonus A: Social Studies — U.S. History

Incredible destruction and death surrounded the final voyage of the U.S.S. Indianapolis in July of 1945. Provide the following bits of information regarding that voyage.	
A	The ship's outward destination was Tinian, an island in this chain. <u>Marianas Islands</u>
B	The ship's cargo was used in the making of the first atomic bomb used in combat, which was delivered by this plane. <u>Enola Gay</u>
C	Of the 880 men who went into the water after the ship was torpedoed and sunk, 563 of them died as a result of this. <u>Shark Attack</u>
D	Because the ship was sunk, this captain of the Indianapolis was court martialed, the only captain of a ship that perished in combat to hold that dubious distinction. Charles Butler <u>McVay III</u>

Tossup B: Fine Arts — Music

Moving to Moscow as a child to study piano under Zverev and Siloti, while a student he won awards for his short opera Aleko. He was only 19 when he wrote his first of four piano concerti, as well as his suite Morceaux de Fantasia, which contains his most famous piano piece, a prelude. Name this Russian pianist and composer best known for his Prelude in C-sharp minor and Rhapsody on a Theme of Paganini.	Sergei <u>Rachmaninoff</u>
---	-----------------------------------

Bonus B: Math — General

Convert the following numbers to decimal.		
A	1 2 3 in base 8.	<u>83</u>
B	1 F in base 16.	<u>31</u>
C	1 0 0 1 in base 2.	<u>9</u>
D	2 1 in base 3.	<u>7</u>

Tossup C: Social Studies — Geography

<p>Under the control of a foreign power until 1999, it was first attempted by a French group under the charge of Ferdinand de Lesseps. Though that attempt failed, it helped lead to the creation of the Spooner Act in 1902, which later materialized into the Hay-Bunau-Varilla Act. Name this water structure, which allows ships to no longer have to travel around Cape Horn to pass from the Atlantic to the Pacific, and named after a Central American country.</p>	<p><u>Panama Canal</u></p>
---	-----------------------------------

Bonus C: Fine Arts — Visual Art

<p>Identify the following about iconic images in American Art.</p>		
A	<p>Possibly the most identifiable and parodied work in American Art, this work features a farmer with a pitchfork alongside his wife.</p>	<p><u>American Gothic</u></p>
B	<p>This work depicts a man in a small boat struggling against the waves of the sea, and a few sharks as well.</p>	<p>The <u>Gulf Stream</u></p>
C	<p>This work features a seated woman in a black dress sitting in front of a landscape painting hanging on the wall.</p>	<p><u>Arrangement in Grey and Black: The Artist's Mother</u> <i>(accept <u>Whistler's Mother</u>)</i></p>
D	<p>This work shows a girl, who may have had Polio, lying in a field looking towards a house.</p>	<p><u>Christina's World</u></p>
